The students from McGuire's are uniformly successful in the Latin classes at the University. I can recommend this school without reserve."

Dr. J. M. Page, Professor of Mathematics and Dean of the University of Virginia, writing September 13, 1909, says: "For about ten years it has been my duty to pass upon the preparation of students entering the University, and it is only fair to say that in no case have I found that a student entering with the McGuire recommendation proved later to be deficient in the subjects for which he was recommended.
